

What it is, what it can do for you

Mobile Worklists makes material handling and management tasks more efficient and makes your staff more productive by making use of mobile technology to reduce the back and forth between the stacks and the desk and cut down on repetitive material handling.

Mobile Work lists allows the user to do the following:

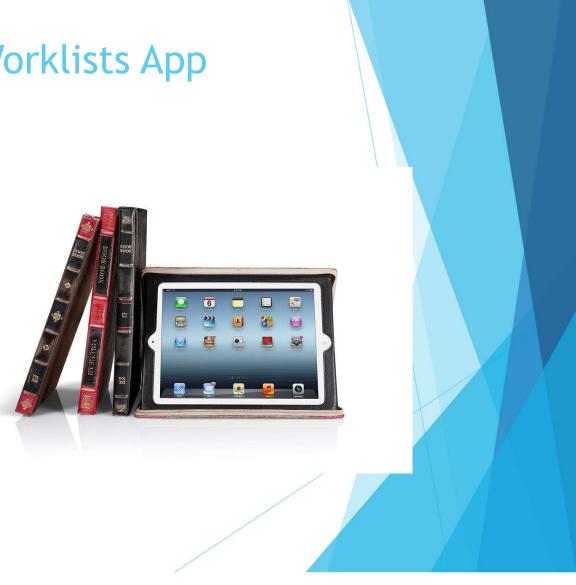

- Create a list of records in the app
- Scan barcodes with the camera on their mobile device using integrated barcode scanning from Send a list of items to Sierra
- Keep track of lists in My Lists
- In Sierra, turn a list into a review file.
 Users can then update records in Sierra using Global or Rapid Update

System requirements

- Sierra 3.0 or higher
 - We are currently on 4.3

System requirements

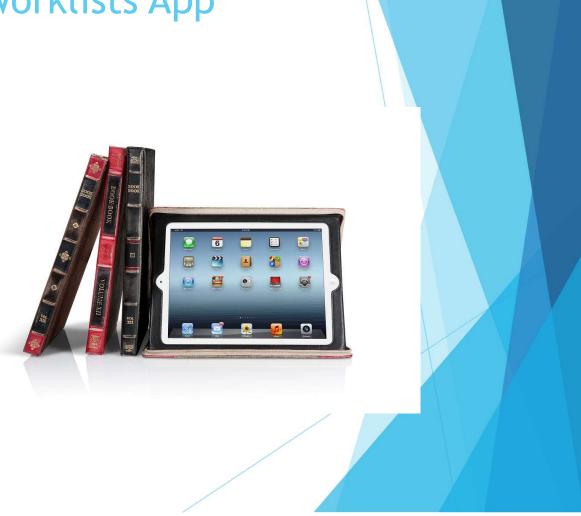

- Mobile Worklists supports the following devices using iOS 7.0 or above:
- iPad 3 and up (including Mini and Air
- iTouch 5G and up (Oct. 2012 and later)
- iPhone 4 and up
